Chapter 1 - Sad isn't it

2

1 - Sad isn't it

Sad, isn't it, how people have such a warped view on love nowadays... i admit, i was one of them....

Sad how people want love so bad, they will sacrifice themselves and become someone they're not just to feel loved

Sad how people will just take the first guy whos interested in them and just make them fall in love

Sad how people will use boy/girlfriends to just get the guy they want to notice them

Sad how this goes around every day

Throughout our society, and yet how it goes by forever...

Sad that people will mutilate themselves because their "love" won't notice them

Sad how people will just believe "my guy/girl loves me!! he just isn't ready yet" and how quick they are to believe that

Sad how i was just like that...

believing that my one guy, who is still my one guy, loves me.... just not ready....

just because we hug

just because we say i love you

just because we held hands

just because we both want to be with each other

just because we both want to be accepted by the other

just because we both want to go out with each other

just because we both promised to sleep with each other, and we both want to wait until love is there in our hearts

doesn't mean he loves me....

doesn't mean he wants to be with me

doesn't mean he wants to spend forever with me

doesn't mean he wants my children

doesn't mean he loves me....
