1 - spongebob joins the air force

the evil plankdross killed spongebob's father! so he decided to avenge his father! however, when he joined the air force, he was the leader, like his father.....but squidco was jellous of him. he was good friends with patrick toad. one day, they were fighting plankdross's goons..... when suddenly-patrick got shot into space. everyone thought he was dead but as it turned out: he was still alive on a planet where family guy and the simpsons were in battle! he was in the ruins of an ancient civilization! they soon got him back on the ship. after that, they eventually got to the place where plankdross was.....where ever that was.....uh, whatever. so spongebob blasted his giant head until he was a giant brain and he made a really corny pun and it was like: ""i have the brains to defeat you!"" and so he was defeated. THEEND!!!!.....OR IS IT????

2 - all your krabby patties r belong 2 us

it was a thursday night, spongebob was having some trouble gettin" to sleep and was trying to fight amsonya by playing reading the journal that belonged to his father. the next day, genral pepper gave him a misson to save the planet of splogdur which was entirely populated by rats and turtles. how ever, spongebob teamed up with prinsess sandy acorn. plankdross was back from the dead and un fortionaly, he was very, very, FAT!patrick was there too, but he had to face his robot rival, mechapat! a robot replica of patrick! so spongebob and sandy started beating up all the robots (sent by plankdross of course) so then the mutant ground hog showed up and started eating all the turtles!spongebob grabbed out his lightsabre and tryed to kil the groundhog thingie, while the battle between pratrack and mechapat continues! suddenly, mechapat sliced off both arms of patrick! all hope was lost! infact, mr.krabs whent to the death tank (the place were plankdross was hiding) and plankdross chopped off mr. krabs"s and one of his arms! all hope was defenetly lost! lost like the family who went outside our solar sytem in that movie! (lost in space) but then, up from the sky, came a yellow hedgehog with nine spikes on the top of his head and a mysterious overbite, blasted a sonic boom across the planet which made all the robots dissinagate including mechapat! after that, mr.karbs and patrick got robotic limbs!
