Chapter 1 - goodbye

2

1 - goodbye

goodbye big world
hello open sky
take me so i may not cry
take these burdons i bare
with broken dreams
and no time to spare
worked hands down to the bone
grim and dirt is always shown
sad little faces
in the pits of dispare
going threw my great depression
i cant not bare
goodbye world who seems so big
when you notice how small you are.
goodbye world that needs more room
because i cant find space
i need to face the fact
that this world is for the strong
one little poet
one big world
one move to make it all change
if you want to see the change in the world
you must be the change to see it
the open sky is were i see
my future so free
big clouds
small clouds
angered clouds that scare some
one big world
one small poet and a world of change
hands reaching up from the darkness below
a tiny rope that can not hold
a pencil is all i need
and my paper to last me a life
a little poet who sits in the corner
longing to leave
the sky is the goal
and the earth below
one little poet
wrote down and words
became love
passion, hope, cures,

wings for flying to leave a
world that was so large
but taken up by so many
now says goodbye.
