As one of those "Come and go" kinds of wolf, Voltage had to know what to do and not what to do at a

very early age. By following and bending, but not breaking, the rules, he got by the rough times with relative ease, even with nuisances. Now, he plans on having some fun, but it depends on how he feels.[br]

Personal Quote: "Now, you are shocked!"[br]

[br]

Lightning Cannon "Death Of Thunder"(D.O.T)[br]

[br]

"Kra-KOOM! HAHA!!!"[br]

[br]

Now, a trademark projectile weapon of his is the D.O.T. Initially used for getting to higher places, this technical piece of weaponry can turn the tables on any unwary being who crosses him at the wrong time, and when that happens, you don't want to be in his way.[br]

-----[br]

Speed: *****[br]

Damage: ***..[br]

Weight: **..[br]

Range: **...[br]

Ammo: ***..[br]

Special Effects: Can use Thunder Jump and Electro-Parasite.[br]

[br]

Reason: When kills someone with his Lightning Cannon.[br]

Movement: Voltage makes a lightning arc with his hands and says: [br]

- Shocked, aren't you?*Laughs*[br]

- Keep saying that to yourself buddy, you're not gonna win.[br]

- You called me Sparky, and look what happened to you.[br]

- Seriously, you SUCK!!![br]

- Hah![br]

- Wool![br]

[br]

Lightning Strikes/ Santoryu[br]

-----[br]

[br]

Lightning Strikes Stats: [br]

[br]

"No one else can do this!"[br]

[br]

Known to create some kind of punishment at long range, this natural weapon of his can annoy and make the other team look bad if used properly, and no-one likes a team that looks bad.[br]

Speed/Reloading time: ****. [br]

[br]

Trio Bokken Stats:[br]

[br]

Now some people think that this is some kind of alien technique. But others fear it for the right reasons.

And fear it they should. One wooden sword in each hand, one in the mouth, equals a traditional Japanese samurai art called Santoryu. "Wooden swords?" Yep. They're just as deadly in the right hands as normal katanas.[br]

[br]

Speed/Reloading Time: *...[br]

- I see what you're trying to do... But, you're miserably failing it.[br]

- Come back next life, I'll be waiting.[br]
- All talk and no b*lls, yep, that's you all right.[br]
- Hi. Bye.[br]
- Congratulations! You're dead.[br]
- Still running strong, I'll think you'll find.[br]
- Every single time you meet me, you die. Pack it in and take another job![br]
- *Sings*I'll be sorry so you said, I'm not sorry, BANG, YOU'RE DEAD!!![br]

[br]

Reason: After stealing the intelligence from the Enemy and Runs off with it:[br]

- YOINK![br]

- You ain't having this back![br]

- Mine now![br]

- I got the intel![br]

[br]

Battle/Combat Begins[br]

-----[br]

- Swordplay is my specialty.[br]

- I'm the Lightning Samurai, and you are all dead![br]

- BRING IT![br]

- Wouldn't you rather stay alive instead of trying to kill me?[br]

[br]

Background Story: At the age of 4, Scar was a child with very few friends, those he did have were female. At 7, he gained more popularity with other people with his massive strength, and rivalled adults in one of his favourite sports, cage fighting. At 8, a girl called Mellissa Lakedown who was 5 years older than him, taught him how to use his fighting skills to protect others. At 10, he was attacked by Reptilion, a half Komodo Dragon, half King Cobra, giving him deep scars on his face, chest, arms and right leg, and had to watch Reptilion rape and kill Mellissa. He was then accused of killing her, but not raping her.

He was exiled at 11 years old after his scars healed up. His strength has now grown to god-like proportions, no-one able to match it, not even the Jack Of Blades(True), and is still hunting Reptilion down.[br]

[br]

Short Description: "Scar's strength was the trigger for him to Cage fight, and it also lets him vent out his anger."[br]

"The Bitter End" Shrapnel gun.[br]

[br]

"Oh, you are so screwed..."[br]

[br]

This is an absolute brute of a weapon, and when in range, it's an absolute doozy. This shrapnel-gun was bought for \$99.00 from the weaponry depot from the company "Boarders and Ammo", and combined with Hail's speed, his tenacity, his blood-thirst and this weapon of choice, you don't want to be near him, or anywhere in the arena. The only problem is that he can only fire when the weapon has the second shell inside the swivel system, and when he's down to his last bullet, he has to put a dud in.[br]

Stats: [br]

Speed/Reloading time: ****-[br]

Special Effects: Can activate "Thermal Imagery" effect with this weapon, 50% more damage than the scattergun, 25% less ammo can be used.[br]

[br]

Reason: If he kills someone with "The Bitter End".[br]

Movement: He throws a rock in the air and catches it, crushing it, turning it into dust, says:[br]

[br]

Sadistic, maniacal, destructive, deadly... Only a few of the words from said list of many words. And Hail, cracking out these two weapons, can possibly be the last thing that his enemy might see. And from a close up of sword shows that it's serrated, meaning that in theory, it can cause more damage than the average samurai sword, Australian boomerang machete, Baseball bats, Drunk's Scrumpy bottle, Mute's axe, sneaky knives and crazy medic's bonesaws.[br]

Short Description: "They don't give the name "Attack Hound" to any old dog, and Eleven has deserved the name of "Attack Hound" not because he was in the Berlin Police Force, but that he was too ruthless and sadistic for the Berlin Police Force. So they decided to make him the Angriff-Hund for the teams on the field, and being the youngest on the field, he's got a hell of a lot of energy, a deadly set of teeth, and the "Multi-Purpose Back Pack", which include a set of machineguns, E.S.Ds, and a Double-Jet rocket pack for that extra boost of speed, means that he's a formidable force to be reckoned with."[br]
