Glassfur is just your average female. She loves cleaning herself more than the average cat, gossiping, and talking about cute Toms. She can always be found with a clean shiny coat, with her bestest oldest and most dearest friend, Waterfur. If talking were a sport Glassfur would win first place. Originally a rouge cat, Glassfur quickly adapted to clan life, when she was accepted as part of the new and growing clan. She hates the fact that Daystar gave her a Tom apprentice. She is one of the youngest warriors of the clan.

8 - Sparklepelt

Sparklepelt

Warrior

Tawny brown Siamese she-cat with black ears, tail, legs, with white toes, black mask and blackish sides; blue sparkly eyes

Sparklepelt was formerly known as Ripper. A male name for a female cat. That and her owners always called her a dog. Poor thing was having identity crises. But when she was accepted into Groundclan, she accepted that she was a female Siamese cat. Since Sparklepelt had a bad kittypet name she feels empathy for her young apprentice, Spiderpaw.

Weight- 15 lb.

Favorite food- Birds

9 - Lemurfur

Lemurfur

Warrior

Dark brown tom with a black tail, black boots that reach to his knee joint, and black face; blue eyes

Lemurfur does not like it when his fellow felines call him by his kittypet name, Professor Fuzz Fuzz (My cousin Sam wanted to name a gray fuzzy kitten that once. I felt sorry for it). Lemurfur gets his name from the Red Ruffed Lemur. He's a very mellow tom that loves nothing more than to play and jump around with his apprentice, Racconpaw. Lemurfur is an exceptionally good climber. He is teaching Racconpaw all the basics of jumping from one tree to the next without losing your balance. The only problem with Lemurfur is that he is scared of water. Won't go near it, but to drink.

Age- 24 moons

Height- 1 f

Weight- 16 lb

Fav. Food- Snake

10 - Waterfur

Waterfyr

Warrior

Age- 24 moons

Height- 1 1/2 ft

Weight- 14 lb

Fav. Food- Robins and other birds

11 - Bloodfur

Bloodfur

Warrior

Red-brown tom; red eyes

Bloodfur is really mean. He despises kittypets but accepts the ones that came in at the beginning of the Clan. He can be really hard to get along with and hates to be told he is wrong. Normally he will only listen to Daystar but on occasions gets into fight with her. He is stick to his apprentice, Cookiepaw, and she takes it as constructive criticism. Rosekit and Stonkit can be a pawful sometimes but she adores them and gets help from Bladestorm, the other queen. When Scruffypelt is having to be a warrior, she is an agile fighter. One of the most agile in the Clan.

Bladestorm is nice despite her name. She one of the kindest members of the Clan. She adores Fanpelt and her kits. She also loves Scruffypelt's kit like her own kin. She loves to take care of them and even helped Scruffypelt name her kits. As a warrior, Bladestorm is really fast, strong, and agile. When fighting, she takes fast jabs mostly to the underbellies of her enemy.

Mate - Fanpelt

Height - 1F

Weight - 17 1/4 lb

Fav. Food - Hare

14 - Cookiepaw

Cookiepaw(Tinkerbell)

Apprentice

Peanut butter brown she-cat with a black circle around her left eye; black eyes

Cookiepaw was originally known as Tinkerbell. She is the fiercest out of her litter and was the third born, following Stormpaw and Songpaw, followed by Pandapaw and Spiderpaw. She has a very fierce temper and a short fuse. Cookiepaw is not very reasonable. Her fighting style is fast, quick jabs to weak parts of the feline body. Mostly the knee joints, under the jaw, and the base of the tail. It's very effective. Although she's not the oldest of her siblings she's the one that will most likely start a fight and finish it. She always thought she was supposed to be a wild cat, and hated having a cozy home and food when she was hungry, her siblings didn't understand it. She loves the wild freedom of clan life.

Age - 9 moons

Mother - Flower

Father - Twinkie

Bro/Sis - Stormpaw, Songpaw, Pandapaw, Spiderpaw.

Height - 7 in.

Weight - 10 lb

15 - Songpaw

Songpaw(K-K)

Apprentice

Pure white she-cat with a black boot on her left hind leg; yellow eyes

Songpaw was originally know as K-K. She was named by a 5 year old. When Songpaw meets new cats she is really shy but with cats she knows, like her brothers and sisters, she is very loud and not afraid to speak her mind, and mostly, sing. Songpaw got her name because she loves to sing....and is good at it. She can easily carry a tune and can lull anything to sleep, even a flower that opens with the sun. Of course along with that she has a terrifying screech. When she's mad, she lets out an ear-splitting yowl that could jog even a deaf cats hearing. Songpaw is the second oldest, and was born shortly after Stormpaw, but before Cookiepaw, Pandapaw, and Spiderpaw. Songpaw is Softpaws best friend and Waterfurs apprentice. Songpaw loves her Mentor and would give her life for her. Songpaw is the best hunter for her ability to put her prey to sleep.

Age - 9 Moons

Mother - Flower

Father - Twinkie

Bro/Sis - Stormpaw, Cookiepaw, Pandapaw, Spiderpaw

Height - 6 4/5 in.

Weight - 9 7/8 lb

Fav. Food - Vole

16 - Pandapaw

Pandapaw(Peter)

Apprentice

White tom with black spots where a pandas spots would be; yellow-green eyes

Pandapaw is the smartest, most humble of the litter of 5. When I say smartest, I mean he thinks things threw more than his siblings. He loves to swim and is just as good as a RiverClan cat. He is only older than Spiderpaw, but is younger than Stormpaw, Songpaw, and Cookiepaw. Pandapaw really doesn't like meat. He'll eat it, but if he has the chance he will take berries, apples, and herbs.

Age - 9 Moons

Mother - Flower

Father - Twinkie

Bro/Sis - Stormpaw, Songpaw, Cookiepaw, Spiderpaw

Height - 7 1/2 in.

Weight - 11 lb

Fav. Food - Wild Strawberries

17 - Stormpaw

Stormpaw(Sparky)

Apprentice

Tom with different shades of gray splotched all over his body and one on his left foreleg that looks like a lightning bolt; blue eyes

Stormpaw is the oldest of his brothers and sisters. And he loves to eat. He eats and eats and eats. He is very chubby and slow. He makes up for his lack of speed with strength. He is a feline power house. His fighting technique is to charge, tackle, and bite. Very effective. His kittypet name, Sparky, was given to him because of the marking on his foreleg. He was always the biggest of his siblings and took pride in that. Robinpelt sometimes has a hard time getting him to consecrate on something other than his stomach.

Age - 9 moons

Mother - Flower

Father - Twinkie

Bro/Sis - Songpaw, Cookiepaw, Pandapaw, Spiderpaw

Height - 9 in.

Weight - 19 lb

Fav. Food - Anything edible that isn't vegetarian

18 - Spiderpaw

Spiderpaw(Mr.Jangles)

Apprentice

Black tom with white lines like spider webs covering his body; green eyes

Spiderpaw is lazy. That's all you can say for him. He is lazy and takes more after his long-haired father than his short-haired mother. He has long tufts of fur on his ankles that look like waves when he moves them. Although he rarely moves them. He speaks in slow drawn-out words. In an ambush he never moves till the enemy is right up at him. He loves sitting in a sunny spot when he is done eating. But seeing as the Clan takes refuge underground it's hard to find one. But he manages. He hates fighting because he would rather sleep. He is the youngest of his siblings. He mostly eats insects because they come up to him and he doesn't like to move to really catch his food. So he eats bugs.

Age - 9 Moon

Mother - Flower

Father - Twinkie

Bro/Sis - Stormpaw, Songpaw, Cookiepaw, Pandapaw

Height - 8 in.

Weight - 12 lb

Fav. Food - Grasshoppers

19 - Dogpaw

Dogpaw(Kitty)

Apprentice

White tom with black spots that make him look like a dalmatian; yellow eyes

Dogpaw, originally known as Kitty (he was named by a 32 year old), was teased because he looked like a dog. Not in stature but in appearance. Black and white spots aren't to stylish in the cat world, but he manages. Dogpaw doesn't act much like a dog, except for the fact that he is the best digger in the Clan. He doesn't mind that though. When tunnels need to be dug, he's the first cat that Daystar calls. He takes pride in that. His mentor, Glassfur, hates the fact that he is always dirt covered and dirty. She is contently telling him to go clean his fur. Dogpaw is the oldest of his litter. He was shortly followed by Racconpaw and Softpaw.

Age - 10 1/2 Moons

Mother - Paperclip

Father - Micky

Bro/Sis - Softpaw, Racconpaw

Height - 10 in.

Weight - 13 lb

Fav. Food - Duck

20 - Softpaw

Softpaw(Miss. Fluff)

Apprentice

Light gray she-cat with dark gray boots; blue-green eyes

Softpaw is a very agile feline. The most agile in the clan. She usually can avert any attack that comes her way. She was the runt of her litter, also the youngest, and the only female, But that's fine. Dogpaw and Racconpaw are always at her side making sure she doesn't get into to much trouble. But more of the time she's stopping Racconpaw from formulating plans to cause mayhem and mischief. Softpaw is fun loving and good at catching fish. The quickness of her strikes is at no other felines level. She would most likely be caught saying "Let's Do This!!!"

Weight - 11 lb

Fav. Food - Fish

Racconpaw is often mistaken for a raccoon. Therefore he must be careful when walking on the land above GroundClan's camp, for fear of getting sighted by twolegs that bring their dogs there every now and again. Racconpaw is a mischief maker. He is always being flanked by his older and younger siblings, Dogpaw and Softpaw, so that he barely has time to make a plan, much less put it into action. Racconpaw is always made fun of because of his kittypet name. He often talks to Lemurfur and Sparklepaw about it, for they too are victims of bad kittypet nameings. Racconpaw loves to climb trees. 37 - THIS IS NOT A CAT!!!

GroundClan

GroundClan is very different from ShadowClan, WindClan, RiverClan, and ThunderClan. GroundClan is stationed underground. All the cats that are part of the clan live in hollowed out tunnels under the earth. Because of this, the cats have eye sight that is greater than any other clan. After a winter underground, the cats coats grew back shimmer and shiny. Very little dirt actually gets stuck on it. Mud just rolls off. Water rolls off too. The tunnels are different lengths and they lead to giant holes which are used as the dens. The elders and queens have dens nearer to the entry hole but the length of the tunnels are the longest but they are the straightest. All of the tunnels connect to a large clear hole where the hole clan meets to share tongues and speak. There are many fake entrances to the camp, all of witch lead to dead ends. The cats can get anywhere they want to by going the right way threw the tunnels. It even has a tunnel leading Mothermouth. The camp itself is located across from WindClan camp and ShadowClan camp.
