Night-shade is the leader of the pack. He is Moon-shine's mate. Night-shade is the most reasonable male wolf and is not easily beaten in battle.

Mate - Moon-shine

Pups - Dark-holly, Light-holly, and Red-holly (most of the packs wolves but their adults now)

2 - Moon-shine

Moon-shine

Alpha-female

Pure white she-wolf; Yellow eyes

She is Night-shades mate and the female leader of the pack. She was the one that persuaded Night-shade to take in the kit they named Lilly-cove. Moon-shine is the most reasonable she-wolf in the pack. She keeps everybody in line.

Mate - Night-shade

Pups - Dark-holly, Light-holly, and Red-holly (most of the packs wolves but their adults now)

Fav. Food - Rabbit

Fav. Season - Winter. Easier to hunt

Least Fav. Season - Summer. She stands out to much.

3 - Red-blast

Red-blast

Female

Red with black paws; blue eyes

Red-blast has been in the pack since she lost her pups. They had all died and she had lots of milk left so she nurses Sky-jewels pups. She was sergeant mother to Black-holly and White-holly and loves them as if they were her own. She is not easily hidden in the foliage where the pack lives because of her fur.

Fav. Food - Rabbit

Fav. Season - Fall. It's easier to hide

Least Fav. Season - Winter. Hard to hide.

4 - Snow-chill

Snow-chill

Female in Pack

White with a grayish muzzle; blue eyes

Snow-chill is a great hunter. She is also very reasonable and doesn't jump to conclusions (a very bad place to jump to). She follows the Wolf Pack Code of Honor to the littlest detail and all the pups think shes too strict. She has the pleasure of teaching Light-holly and White-holly.

Fav. Food - Moose

Fav. Season - Winter. Her coats white making it easy to hide and hunt. Also Spring. New pups to watch after.

Least Fav. Season - Summer. She can't hide in the green and brown of the forest.

5 - Timber-coat

Timber-coat

Female in Pack

Tawney brown; blue eyes

Timber-coat was adopted into the pack and has a twisted paw. It's the back right paw and she was run over by a 4-wheeler as a pup by some nasty teenage kids. Her birth pack thought of no use for a lame wolf and sentenced the little pup to exile. She usually stays at the den and watches the pups. She is very fair and loves to play. She, besides Moon-shine and Night-shade, is allowed to lick Lilly-cove's coat to clean it of just to show comfort. She is really good at medicines and healing.

Fav. Food - Deer

Fav. Season - Really is none. All the seasons are equal to her. She figures if you didn't have the worse seasons you would never get to the good seasons.

Least Fav. Season - None.

6 - Stone-tail

Stone-tail

Male in Pack

Dark gray with a light gray tail tip; brown eyes

Stone-tail is Stone-paw's almost twin brother. They were born only 1 minute apart in human standards. He is older and doesn't let Stone-paw forget it. Stone-tail is one of the fiercest in the pack. He doesn't like his brothers silly antics and is almost constantly shutting him up.

Fav. Food - Wild-turkey

Fav. Season - Winter. No new-born pups to worry about

Least Fav. Season - Spring. Annoying pups bite his tail and paws and try to get him to play with them.

Brother - Stone-paw

7 - Stone-paw

Stone-paw

Male in the Pack

Dark gray with light boots; brown eyes

Stone-paw is Stone-tails little brother. He is the troublemaker in the pack and loves to prank his pack mates. He gets along with the pups as though he was one of them. Night-shade can get aggravated with him if he causes too much trouble, but the punishments soon subside whatever they may be.

Fav. Food - Wild Turkey

Least Fav. Season - None.

Brother - Stone-tail

Bay-wolf is Dirt-paw's brother. Although Bay-wolf is younger than Dirt-paw he is more mature, agile, and ferocious. Bay-wolf is stronger, faster, and a better fighter than his older brother. Like his namesake, Bay-wolf loves to bay at the moon.....and the sun...and the trees...and any other things he happens to like to howl at.

Fav. Food - Rabbit

Fav. Season - Fall. He likes making beds in the new fallen leaves

Least Fav. Season - Winter. The snow is too white and crunchy under his paws

Brother - Dirt-paw

9 - Dirt-paw

Dirt-paw

Male in the Pack

Light brown with dirt brown boots; yellow eyes

Dirt-paw is Bay-wolf's older brother, but he is more immature. Although Dirt-paw is a great hunter his brother is better. Dirt-paw's main goal in life is to prove himself to be better than his brother in some way or another. What he doesn't know is that he's better with pups. He loves to play more and therefore the pups like him better. He is also best friends with Stone-paw.

Least Fav. Season - Winter. There are no leaves to chase and hunt

Black with an unusual orange/red striped tail

No wolf knows how or why Tiger-tail has a striped tail, but he does. What the pack, excluding the leaders, doesn't know is that Tiger-tail is half wolf half dog. His father was a wolf, but his mother was a very rare striped dalmatian (yeah those aren't real...), Tiger-tail new he was different so he ran off and found the pack that his father had been part of. His father (I don't have a name for him) had died in battle but Night-shade let Tiger-tail stay since he did have pack blood. Tiger-tail is one of the best hunters and loves the thrill of the chase.

Moon-shine saw her and pleaded to Night-shade to let them keep the "Poor, innocent, scared, lost, cold, pitiful, thing" and it worked. Moon-shine nursed Lilly-cove till she was weened. After the initial shock the pack got to know her better and Lilly-cove was accepted into the pack. She hunts with them by being a lookout for sick or injured prey and alerts the pack when they get to near twoleg place.
