# 1 - Sapphire Angel

## Sapphire Angel

Hair of silver and eyes of blue  
In my world its just me and you  
Wings of white and heart of gold  
When I'm with you I always feel bold

I want to spend eternity  
In endless love and serenity  
You see in me a warrior in armor  
Even if I seem to be a monster

Without you in my life  
I could never be guided to the light  
My life would be forever painful  
Without you, my sapphire eyed angel

## 2 - I don't have the key

I don't have the key

Blacker than night  
Colder than ice  
Mind is numb  
Heart in a vice

The pain I suffer  
Every day  
Is forever hidden  
And locked away

My past stays caged  
Inside my mind  
The only key  
Never was this kind

### 3 - Rage

#### Rage

My blood runs warm  
My mind races  
Like a destructive swarm

I cant change my past  
But I can alter my future  
The ship to my mast

You bottle up the rage inside me  
You keep me safe  
From the rage that binds me

## 4 - Am I alone

### Am I alone

An empty shell  
A soulless corps  
A living hell  
They show no remorse

My spirit eternal  
Thus means nothing  
I'm past denial  
But I'm not sulking

I once found hope  
But then I lost it  
I'm climbing up this slope  
My demons I cant hit

## 5 - Demons

### Demons

I have no horns  
But they are there  
We all have demons  
That we all share

Their from the past  
Their from the present  
The bodies inner cast  
I'm this monsters peasant

His puppet on a string  
I always do its bidding  
Forced to bow to this king  
I wish I was only dreaming

## 6 - Why cant I

### Why cant I

Why cant I feel  
The softness of your skin  
Why cant I show  
That my heart you'll always win

The path to you  
Is never easy  
My mind gets numb  
And stomach queasy

Why cant I tell  
What my soul always say  
Why cant I make  
My body stop and stay

## 7 - Rights and Wrongs

### Rights and Wrongs

I was wrong for shouting  
Directly in your face  
I was wrong for running  
And picking up the pace

I was wrong to think  
We couldn't be together  
I was wrong to say  
That I truly loved another

I was wrong for telling  
Words that were not kind  
I was only right  
By keeping you in my mind

## 8 - How you changed me

How you changed me

I only frowned  
You made me smile  
I was alone  
Then you were with me  
I felt pain  
Till you showed me joy  
I was empty  
You filled the void

My sorrows have fled  
When you came to be  
The stream of my life  
Now runs so smoothly  
When I look in your eyes  
There is no sorrow  
i never felt love  
Till I found you

The kindness I see  
Inside your spirit  
Changed my soul  
From the inside out  
My blackest nights  
Are filled with light  
And your contagious kindness  
Cleansed my sins

With my mind now clear  
I can now see  
What I desire  
Is for you to be with me  
I want to protect you  
For the rest of my life  
Holding you closely  
Holding you tight

## 9 - Ripples in the Water

### Ripples in the Water

The waters calm surface  
Has settled once again  
The mini wave have subsided  
From the fish that left  
The song from the bird  
Fills my ears slowly  
And the fox with his red tail  
Comes to keep me company

The silence is calming  
So my mind can clear  
But over welming fear  
Of what can happen  
The shadow of my past  
Is as dark as the rocks beside me  
I feel my life is nothing  
And thus its my name

I pick up the stones  
And toss them in  
Then those ripples in the water  
Have started once again  
The sound seemed silent  
But attention I did not pay  
The bird stopped her song  
And the fox turned and ran

Within those once calm waters  
The stillness shattered  
Like a forgotten window  
Aged by unforgiving time  
My soul sinks  
Like the fist full of pebbles  
Making the ripples in my life  
Till my heart calms again

## 10 - Friends

### Friends

family your stuck with  
For the rest of your life  
Lives may end  
And new life begins  
Faces you've known  
Since you were born  
Some you will see  
On life's separate poll

But friends you meet  
Along life's journey  
And you add them  
To your ever growing family  
Keep as many as you can  
As you look out for each other  
The bonds that you make  
Others may never break

Bonds that could never be faked  
My friends I trust with my life  
The ones I talk to  
When the world is so cruel  
I thank you all  
For all your kindness  
To whom I share my thoughts  
My ideas and my feelings

The tale that I tell  
The one that we call life  
Is that however much they change  
Keep those friends from the past  
And make new along your journey  
Keep the chain growing  
Sadly the message must end  
But I hope your growing family  
Does not

# 11 - Alone

## Alone

Its a sickness that everyone has  
Everyone except for a lonely wolf  
Love is something he will never have  
All he can do is love himself

He yurns for it  
He would kill for it  
But try as he might  
His soul remains a bottomless pit

To love and lost  
Is what they say  
A warrior has nothing  
When the fight is done for the day

All the fortune in the world  
Cannot get him what he desires  
His heart remains broken  
Life has put out his fires

Passion he is not familiar  
Love he was never told  
Beauty he has never seen  
His entire life has run cold

## 12 - Tonight

### Tonight

Tonight is a bright  
Beautiful star-lit night  
And under the moon  
Our shadows are one  
With your arms around mine  
Underneath the moons bright shine  
The sun has gone to sleep  
And the birds have silenced  
We lay on the ground  
Without a single sound  
The shine from the stars above  
Gleam in your eyes  
With having you in a warm embrace  
My heart begins to pound and race  
The emerald grass underneath  
Soft as an angels cloud  
But your skin is softer  
And as warm as your laughter  
Keeping out the cold  
That the calm breeze brings  
Plus perfect dark hair  
And gentle glare  
Words never said  
Because they are not needed  
To tell each other  
Our love for one another  
This wolf child howls  
For his wild flower tonight

## 13 - All year long

### All year long

My heart leaps every time your voice is heard  
An angels tone that always stands out  
To hear your laugh always makes me smile  
To walk with you and hold your hand  
Holding you tight not wanting to let go  
I will always hold you close to my heart

The warm sun shining off your hair  
Soft green grass beneath our feet  
Laughing and splashing at the lake  
We hear the crickets shout their call  
Late at night we catch fireflies  
Then lay down under the stars gaze

In what seems to be an instant  
The leaves colors change their hue  
All the reds, yellows, and browns  
We walk hand and hand down the autumn path  
Both thankful for the love that we both share  
As we watch the ever setting sun

Soon the snow slowly falls  
A blanket covers all in view  
The soft voices in the seasons melodies  
Makes us want to smile and sing along  
Underneath the mistletoe we share an innocent kiss  
Then warm by the fire and exchange gifts

As quickly as it came the snow leaves  
And in its place are the flowers of new  
Life seems to spring out of every corner  
I walk with you in the crisp morning  
We smell the roses, tulips, and daisies  
As I hold you so tightly in my arms

From day to night and light to dark  
I will always hold you close to my heart  
You mean the world to me  
I can act like myself so freely  
I can tell you I love you without a sound

As we spend every moment together all year round
